Registration is done through the online admission platform for non-EU citizens: www.admiterenonue.uvt.ro (details available in Annex 4 of the Regulation of the West University of Timișoara (UVT) regarding the organization and conduct of the admission process for bachelor's degree programs).

Article 8. Admission Registration

(1) Registration for the admission competition is done personally, exclusively online, based on the identity card/passport, personal identification data, and other information required by the registration form available on the admission platform (https://admitereonline.uvt.ro/).

Candidates express their preferences in order for the study programs through the online admission platform.

Registration for the admission competition can also be carried out on behalf of the candidate by another person, based on a power of attorney, which will be uploaded on the admission platform in the section dedicated to required documents and certified as a true copy by UVT operators, in accordance with paragraph (5) of this article.

These documents must be submitted at UVT headquarters or at the county admission centers organized by UVT, for scanning and certification as true to the original by UVT operators. Candidates who do not comply with this paragraph will not be included in the admission ranking.

(6) By exception to paragraph (5), documents issued by public or private legal entities in electronic format, bearing a qualified or advanced electronic signature as defined in Article 3, points 11 and 12 of Regulation (EU) No. 910/2014, do not require certification as true to the original.

(7) After the registration period ends, the options selected, their order, and other information in the candidate's file registered on the online admission platform cannot be modified.

(8) Within a single submitted file, a candidate may select multiple options for bachelor's degree programs or types of places (e.g., tuition-free or fee-paying) they are interested in, indicating their priority order. After the rankings are generated, the candidate can be admitted to only one option from those selected in a single file, depending on their preferences, admission average, and the regulations provided by this document.
