

Dear Colleagues

We would like to bring into your attention the first Romanian national conference (with international participation) entitled "Adopted Romanian Youth across the World" (ALIVE), held on June 2, 2016 at the Western University of Timisoara. The conference aims to create a space for discussion and exchanges about the controversial topic of adoptions in Romania, especially the subject of international adoptions.

Also, it is for the first time that a conference on adoption is centered on (and includes among the participants) adults who were adopted during their childhood. The event will bring together a wide range of partners, ranging from practitioners, academics, researchers in the field of adoption, as well as adoptive parents and adults who were adopted as children.

We invite you to attend the event, bringing your contribution through papers that will be held in one of the three sections of the conference (oral or poster presentation) and will later be published in the volume of the conference proceedings.

In order to help us complete the detailed conference program, abstracts of your presentations are expected until the **15th of March, 2016**.

For more information, please visit: <http://www.asistenta-sociala.uvt.ro/traim2016/en/>

To register and learn more information you can contact by phone or email any member of the Conference's Organizing Committee (OC), as presented on: <http://www.asistenta-sociala.uvt.ro/traim2016/en/>

We would like to hear from you and hope to meet you in the evening of June 1st, and on 2nd of June 2016 in Timisoara.

Yours Sincerely,
The Organizational Committee, the "ALIVE" conference.
